## Vietnam Daily Review

The upward momentum has halted

BSC's Forecast on the stock market

	Negative	Neutral	Positive
Day 17/3/2023		•	
Week 13/3-17/3/2023		•	
Month 03/2023		•	

### Market outlook:

**Stock market:** The market experienced a correction after yesterday's substantial gain. VN-Index ended the session at 1,047.4 points, down nearly 15 points compared to yesterday. Market breadth tilted to the negative side with 17 out of 19 sectors dropping, with which the biggest drop being in the Oil and Gas industry. Regarding foreign investors' transactions, today they were a net buyer on the HSX and a slight net seller on the HNX. Currently, VN-Index is still closing above the support level of 1,040. The movement of the VN-Index is in a trend that is difficult to determine due to the intertwined and diffuse influences from (1) the cases surrounding SVB and Credit Suisse and (2) the restructuring of the ETF as mentioned in the weekly report. It is recommended that investors trade cautiously in the short term until the market trend is clearer.

**Future contracts:** Futures contracts decreased in line with the movement of VN30. It is recommended that investors trade cautiously in the coming sessions.

**Covered warrants:** In the trading session on March 16, 2023, covered warrants fluctuated along with the struggling movement of the underlying stocks.
