Market outlook

Stock market: The market struggled all day today in the range of 1,220 - 1,230 before closing at 1,227.36 points, up nearly 4 points compared to yesterday. Market breadth is quite balanced with 7/18 sectors increasing, in which the Utilities led the increase, followed by Information Technology, Chemicals,... Regarding foreign transactions, today they net bought on the HSX and net sold on the HNX. The downward momentum slowed down today. Future contracts: Futures contracts increased according to the movement of VN30. It is recommended that investors trade cautiously in the coming sessions.

Covered warrants: In the trading session on September 15, 2023, covered warrants fluctuated along with the recovery of the underlying stocks.
