Market outlook

Stock market: Falling sharply right at the opening of the morning session, VN-Index recovered to the threshold of 1,160 but was stopped by selling pressure here. At the end of the session, the index closed at 1,154.7 points, down more than 7 points compared to yesterday. Market breadth tilted to the negative side with 17/18 sectors decreasing. The only sector increasing today was Banking. Regarding foreign transactions, today they were net buyers on the HSX and net sellers on the HNX. Although the bottom-fishing force appeared at the 1,145 threshold, the profit-taking pressure at the 1,160 threshold was also huge and VN-Index failed to overcome this threshold twice today. Today. In the coming sessions, VN-Index needs to consolidate more at the 1,160 threshold to gain momentum.

Futures contracts: Futures contracts increased following the movement of VN30 except future contracts F2401 and F2406. It is recommended that investors trade cautiously during the session.

Covered warrants: In the trading session on January 12, 2024, covered warrants fluctuated along with the correction of the underlying stocks.
