

STOCK MARKET

The VN-Index opened lower in the morning session; however, buying interest at the 1,315 support level helped the index rebound, closing at 1,330.32 points, up over 8 points compared to the previous session. 8 out of 18 sectors advanced, led by the Real Estate sector, followed by Tourism & Leisure and Financial Services. The Vin group stocks and several banking stocks acted as key pillars supporting the market. Regarding foreign investor activity, net selling was recorded on both the HSX and HNX exchanges today. Liquidity supported the VN-Index's recovery during the session; the market has returned to the 1,330 level. However, an additional strong rally accompanied by high liquidity will be required to confirm a breakout above this resistance level.
